Provided that in the case of a British subject the requirements of this rule may be waived by the Secretary of State in Council if he is satisfied that their observance would occasion exceptional hardship, and that the candidate is so closely connected by ancestry and upbringing with His Majesty's dominions as to justify special treatment.

Provided also that a Ruler or a subject of a State in India cannot be appointed unless he has obtained the declaration required under section 96-A of the Government of India Act.

3. The guarantors of a candidate selected for admission to the Indian Military Academy will be required to covenant with the Secretary of State in Council that the parent or guardian of the cadet will discharge from his own personal resources all the financial obligations attaching to the training of his son or ward at the Academy, and that in the event of failure to comply with certain contingencies set forth in an Indenture relating to the completion of the course at the Indian Military Academy, and thereafter, the acceptance of a commission in the Indian Land Forces, and the period he is required to hold such a commission, he will pay the full cost which the Government of India shall have expended on the education of the cadet at the Academy. Should it be found that the declaration in regard to discharge of financial obligations at the Indian Military Academy is false in any respect, the cadet will be liable to immediate removal from the Academy.

4. The maximum number of candidates to be admitted to the examination may, in the discretion of the Governor-General in Council, be limited to such number as the Governor-General in Council may decide. If a limit is imposed and the number of candidates exceeds that limit, the Public Service Commission shall select from among the applicants those who shall be admitted to the examination and shall have regard in so doing to the suitability of the applicants for employment as commissioned officers, in the Indian Army.

5. A candidate for this examination must attain the age of 18 and must not attain the age of 20, on the first day of November 1935.

6. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient performance of the duties of a commissioned officer in the Indian Army. 7. A candidate must satisfy the Public Service Commission that he is suitable in all respects for employment as a commissioned officer in the Indian Army.

8. The decision of the Public Service Commission as to the eligibility or otherwise of a candidate shall be final.

9. No candidate shall be admitted to the examination unless he holds a certificate of admission from the Public Service Commission.

10. No recommendations except those invited in the form of application will be taken into consideration. Any attempt on the part of a candidate to obtain support for his application by other means may disqualify him for admission.

*Only successful candidates will be medically examined. Candidates are recommended to consult a Civil Surgeon as to their physical suitability before entering for the examination.

11. (*a*) A candidate who competed in the examination held in March/ April 1935, and failed to obtain a qualifying mark, will not be allowed to compete at the examination to be held in October, 1935, unless he is ineligible by age to compete at any later examination.

A candidate who takes Elementary Science in Part III may not offer Physics or Chemistry in Part II.

Candidates who obtain the requisite 40 per cent. of marks will not necessarily be selected to attend the special technical classes at the Academy. Selection will be made by the Commandant during the progress of the course.

16. From the marks assigned to candidates in each subject such deduction will be made as the Public Service Commission may consider necessary in order to secure that no credit is allowed for merely superficial knowledge.

Rules.

1. These rules may be called the Bengal Electricity Duty Rules, 1935.

2. *Time and manner of collection and payment.*—A licensee shall include the electricity duty leviable under the Bengal Electricity Duty Act, 1935 (hereinafter referred to as the Act) as a separate item in the bill of charges for the energy supplied by him, and shall recover the same from the consumer along with his own charges for the supply of such energy. The consumer shall pay the duty payable by him to the licensee within fifteen days from the date of receipt of the licensee's bill. The licensee shall pay such duty within forty days after the expiry of the month for which it is levied to the Collector or to such other person as the Local Government may by special order appoint in this behalf:

Provided that without prejudice to any other obligations imposed upon him by these rules the licensee may himself pay the duty instead of recovering the same from the consumer.

3. *Keeping of books of account.*—The books of accounts kept by a licensee, under section 5 of the Act, shall contain the following particulars:—

(*i*) name of consumer;

(*ii*) address of consumer's premises with a brief description thereof;

(*iii*) number of units of energy supplied for the purpose of lights or fans or both;

(*iv*) amount of electricity duty chargeable; and

(*v*) date of cutting off the supply of energy on failure of payment of electricity duty.

4. *Submission of returns.*—A licensee shall submit the following monthly returns in duplicate, one copy to the Collector or such other person as the Local Government may appoint by special order under rule 2 and the other to the Electrical Adviser and Chief Electric Inspector, Bengal, by the 15th of the month next after that following the month to which the return relates:—

(1) a return in Form A appended hereto and containing the following particulars:—

(*a*) the number of units of energy supplied during the month for the purpose of lights or fans or both,

(*b*) the number of units of energy exempted under the proviso to section 3 of the Act,

(*c*) adjustments allowed under rule 8,

(*d*) the amount of electricity duty—

(*i*) charged,

(*ii*) charged but not recovered, and

(*iii*) outstanding from previous returns and since recovered:

provided that in the case of any licensee the Local Government may, by special order, modify the form in which the above particulars shall be furnished in such manner as may be considered suitable to meet the special conditions in which electrical energy is supplied by such licensee;

(2) a return in Form B appended hereto and containing the following particulars:—

(*a*) names and addresses of consumers who have made default in payment of electricity duty, and

(*b*) the amount of electricity duty which the licensee has been unable to recover from each consumer:

provided that the Local Government may by special order exempt in whole or in part and on such conditions as it thinks fit any licensee from liability to submit this return.

5. *Inspection of books of account.*—An inspecting officer appointed under section 7 of the Act may, at any time, require a licensee to produce for inspection at the registered or other office of the licensee such books and records in his possession or control as may be necessary for ascertaining or verifying the amount of electricity duty leviable under the Act.

6. *Power of entry of inspecting officers.*—An inspecting officer may enter any premises where energy is, or is believed to be, supplied by a licensee, for the purpose of—

(*i*) verifying the statements made in the books of account kept and returns submitted by the licensee;

(*ii*) verifying the reading of meters; and

(*iii*) verifying particulars or ascertaining information required in connection with the levy of electricity duty.

7. *Reading of meters.*—A licensee shall in respect of energy liable to electricity duty under the Act cause the meter of every consumer to be read, as far as possible, on the same date in each month, and record the units of energy consumed in the month for the purpose of lights or fans or both. The period between two such consecutive readings shall be reckoned as one month, for the purpose of calculation of electricity duty and submission of returns under rule 4.

8. *Adjustments.*—In calculating the duty payable by a consumer the licensee shall make the same allowances for incorrect meters, incorrect readings and leakages as those made in respect of his own charges.

9. *Provision of separate meters.*—Where there is a combined installation using energy both for power and for lights or fans or both and the energy consumed for the purpose of such lights or fans or both is dutiable or where part of a supply of energy is dutiable and part is

exempt the consumer shall instal and maintain separate suitable and correct meters or sub-meters to register the quantities of the two kinds of consumption separately:

Provided that if any consumer satisfies the Collector or such other person as the Local Government may by order appoint in this behalf that the installation and operation of such separate meters or sub-meters involve costs disproportionate to the amount of the electricity duty leviable from him per month and furnishes to the Collector or such other aforesaid person such data as are in the opinion of the Collector or such other aforesaid person necessary for the assessment of the said duty, he may assess the duty payable and exempt such consumer from the requirements of this rule. A consumer exempted under this proviso shall communicate to the Collector within one month any change in the number of the lights or fans or both on the basis of which the duty payable by him was assessed:

Provided further that in any case or class of cases coming within the purview of this rule in which the Local Government by order so direct the licensee shall make such allowance in respect of the part of the supply upon which duty is not chargeable as the Local Government determine.

10. *Settlement of disputes between consumer and licensee.*—When any difference of opinion arises between a consumer and a licensee regarding the liability of the consumer for the payment of duty or the amount of duty due from him, the licensee shall refer the dispute to the Collector or such other person as the Local Government may by order appoint in this behalf and the Collector or such other aforesaid person shall after such enquiry, if any, as he thinks fit, decide the matter:

Provided that before proceeding to enquire into the matter the Collector or such other aforesaid person may serve the consumer with a notice requiring him to deposit with the licensee within seven days from the receipt of the notice the amount of the duty alleged to be due and if the consumer fails to make the deposit as required may direct the licensee to cut off the supply of energy to the consumer until such deposit is made.

11. *Application of rules in the case of supply of energy by a person other than a licensee.*—The aforesaid rules shall apply *mutatis mutandis* in respect of the generation of energy by a person other than a licensee.

12. *Penalty.*—Any person committing a breach of any of these rules shall be punishable with a fine not exceeding fifty rupees.

3. The total interest obtained in 1934 was Rs. 38,397-14-11 (against Rs. 38,200-4 in 1933 and Rs. 38,097-6-1 in 1932). In addition there was a refund of Rs. 4-8 on account of an increment drawn in advance through an error, and Rs. 4,000 transferred from the Savings Bank Account to the current account as well as Rs. 510 as contributions from parents, making the total income for the year Rs. 42,912-6-11 as compared with Rs. 38,464-10 in 1933.

4. The amounts received as interest, etc., were kept with the Imperial Bank of India, and in November 1934 Rs. 6,000 was placed in the Savings Bank Account of the Imperial Bank of India at 2 per cent. and the Rs. 5,000 at 2½ per cent. as fixed deposit for one year which was with Lloyds Bank, Ltd., in November 1933 was renewed for another twelve months in order to earn extra interest. The year opened with a balance of Rs. 8,330-12-3 and closed with a balance of Rs. 8,108-11-7 after investments totalling Rs. 12,099-8 as detailed in the first paragraph of this section had been made.

5. The following table shows the progress of expenditure during the last five years as compared with the income:—

——	1930	1931	1932	1933	1934
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

Total ..	51,357 1 4	53,110 11 6	54,560 7 11	51,707 12 3	51,298 6 2

6. From the above summary it will be seen that the financial position of the fund is steadily improving. Further investments have not been possible during the year owing to Banks not accepting fixed deposits in the early part of the year and subsequently offering 1½ per cent. and considering the increase in new wards (16 in 1933, and 16 in 1934), it seems possible—especially if the policy is pursued of striking off the names of wards whose work is unsatisfatcory—that there will be, during the next few years, an annual surplus of income over expenditure for investment. This may ultimately enable the Governors to consider the possibility of raising the present age limit of 17, and assisting more girls to take University Examinations.

7. The number of wards on the 31st December, for each of the last five years, will be seen from the table given below:—

1930	1931	1932	1933	1934
101	93	95	84	97

8. Six wards were withdrawn during the year. Up to the date of writing of this Report (25th March, 1934), 2 of the total of 97 wards on 31st December left. At the time of writing there are therefore 95 old wards plus 8 newly elected wards or 103 wards in all, as compared with 100 on the same date in 1934.

III. *Election to vacancies, etc.*—The annual election of wards was held on Monday, the 3rd December 1934. On that date 6 vacancies were anticipated before 1st January 1935, but it had previously been decided to advertise 8 vacancies, and 85 applications were received. These were considered by a subcommittee consisting of (1) the Revd. Father F. Keyeux, S.J., (2) the Ven'ble Archdeacon O. W. Birch, (3) the Revd. C. H. Archibald, (4) Mrs. W. A. Burns and (5) Mr. T. G. Barker, officiating Inspector of European Schools, Bengal (convenor), and on their recommendation 8 girls were elected. Of the 8 girls elected (against 16 in the previous year) three were placed in the Pratt Memorial School one in the Loreto Convent, Entally, one in the Convent of St. Joseph's, Chandernagore, one in St. Thomas' School, Kidderpore, and two in the Calcutta Girls' High School.

2. As favourable medical and school reports were received regarding the 16 girls elected in 1933, their election was confirmed by the Governors.

3. Of the 6 girls who left during the year under report:—

1 was withdrawn on the expiration of the extension granted to her for appearing in the Matriculation Examination,

1 left after passing the I. A. Examination,

1 was withdrawn by her mother,

3 on completing 17 years.

4. Of the 9 wards withdrawn during the year 1933, one took up commercial training with a view to employment as a steno-typist. One joined Loreto House, passed her I. A. Examination and joined Dow Hill Training College last year for a training as a teacher. Two were studying for the Matriculation. Two were reported to have been employed as Matrons in their respective schools. One had joined her school hospital for a preliminary training with a view to join the Presidency General Hospital as probationer nurse. Another was reported to have succeeded in gaining admission to the Mayo Albert Victor Hospital as probationer nurse and no reply was received from another who from enquiries made is staying with a married sister.

5. At the close of the year the 97 girls on the rolls were distributed as follows:—

Loreto Convent, Entally—	
1st Boarding	15
2nd Boarding	9
Calcutta Girls' School ...	14
Pratt Memorial School ...	16
St. Thomas' School, Kidderpore ...	8
St. Paul's Mission School ...	4
Sacred Heart Convent High School, Dalhousie, Punjab	1
Loreto Convent, Asansol ...	14
Mount Hermon School, Darjeeling	2
St. Andrews Colonial Homes, Kalimpong	1
Dow Hill School, Kurseong ...	3
Bishop Westcott School, Ranchi ...	1
St. Joseph's Convent, Kalimpong ...	2
St. Joseph's Convent, Chandernagore	7
Total ...	97

6. The following table gives particulars as to the class and religion of the wards at the close of the year:—

Class.	Roman Catholic.	Church of England.	Non-Conformist.	Total.
(1) Orphans or deserted by their parents ..	11	5	3	19
(2) Fatherless or motherless or deserted by their father or mother ..	31	26	5	62
(3) Those who have both parents alive ..	8	6	2	16
	50	37	10	97

IV. *Education and maintenance.*—The nature of the education imparted to the wards continued to be that prescribed for a higher grade school under the code of regulations for European schools in Bengal, but about half the total number of wards read in secondary schools.

2. The Governors are anxious that Bruce wards should become useful citizens when they leave school and have accordingly asked the visiting governors to make, in consultation with the school authorities definite proposals where this seems desirable for training wards who have attained or about to attain, the age of 14, so that the last three years of their school life may be spent to the best advantage and be a preparation for earning a living.

3. The following are the only successes of Bruce wards at public examinations that have been reported up to the date of issue of this report.

One passed the I. A. Examination, another is appearing in the Matriculation Examination and two others have passed the Junior Cambridge Examination.

4. Under the rules a ward is not ordinarily allowed to remain on the foundation after the age of 17, when an outfit grant of Rs. 100 is given to enable her to make a start in life. In cases where wards wish to be trained as teachers, and have the support of the school authorities, or when some special training is recommended, or when a ward is preparing for a higher examination, such as the Intermediate Arts or Commercial Course Examinations, and in the event of a ward being well reported on, some extension of the period of benefit is generally allowed. Two wards were granted extensions during the year under report, one up to the 31st May 1935, in order to complete the I. A. Course and the other who will be 17 years on the 11th October 1935, five months' extension up to 31st March 1936, to appear in the Matriculation in 1936.

5. The average monthly cost for the actual education and maintenance of each ward amounted to Rs. 26-2 against Rs. 24-11-1 in the preceding year. If all expenditure in connexion with the Trust be included the figure are Rs. 29-8 and Rs. 28-1-6, respectively.

6. The amounts paid under the different heads of expenditure were as noted below:—

1933.	Rs.	a.	p.
Education and maintenance	29,337	8	0
Office establishment	879	12	0
Contingencies	194	8	0

Cost of outfits	2,500	0	0
Other charges	362	4	0
Total	33,377	0	0
Investments	10,000	0	0

1934.	Rs.	a.	p.

Contingencies	152	11	6
Advertisement and Printing	79	4	0

V. *Inspection.*—Mrs. W. A. Burns was appointed Visiting Governor for the first half and the second half of the year 1934, to visit schools—chiefly those in Calcutta—who have Bruce wards. Mrs. Burns visited all the schools in Calcutta and saw the wards in each of them. She was specially impressed with the healthy appearance of the girls at St. Thomas', Kidderpore, and the Convent of St. Joseph's, Chandernagore.

VI. *Meetings.*—Four meetings were held during the year, and, among the resolutions passed, the following may be noted:—

(*i*) That the following school be added to the list of schools recognised by the Bruce Institution to which Bruce wards may be sent.

(*ii*) The St. Joseph's Convent High School, Nagpur.

Honorary Secretary to the Governors of the Bruce Institution.

Resolution on the Annual Report on the Survey and Settlement Operations in Bengal for the year ending 30th September 1934.

GOVERNMENT OF BENGAL.

Land Revenue.

DARJEELING, THE 14th MAY 1935.

RESOLUTION—No. 201T.R.

Read—

The Annual Report on the Survey and Settlement Operations in Bengal for the year ending 30th September 1934.

Traverse survey was done by the method of post-pointing over an area of 735 square miles in Rangpur, 883 square miles in Dinajpur and 179 square miles in Howrah, and by the ordinary method over an area of 145 square miles in the diara area of the Brahmaputra in Rangpur. Minor traverse work was carried out in a total area of 87½ square miles scattered over several districts in the province. The Survey Department did valuable work also in comparative mapping and reproduction of maps. The total number of sheets printed was 10,119 against 10,473 in the previous year.

2. An interesting feature of the year's operations was the extensive and successful use of air survey. By this method more accurate maps are produced, and a considerable saving in time and money is effected.

3. During the year, major settlement operations were in progress in the districts of Burdwan, Hooghly, Malda and Rangpur, and preliminary arrangements were made for starting the operations in Howrah and Dinajpur. Minor settlement operations were also conducted in eleven districts, while maintenance operations under section 158A of the Bengal Tenancy Act were undertaken in as many as nineteen districts.

4. The total area for which a record-of-rights has been prepared is 61,675·5 square miles out of the total area of 65,204 square miles to which the Bengal Tenancy Act applies. The extent of the sales of khatians and maps to private individuals is a definite indication of the popularity of the record-of-rights, and reports from District Officers bear testimony to the increasing use made of the records and maps in every branch of administration.

5. Recovery of survey and settlement cost was satisfactory on the whole. Landlords were in many cases allowed to pay costs by easy instalments, and it is interesting to note that as a rule raiyats paid their share of the costs more readily than landlords. Except in the district of Hooghly, where there was some agitation by landlords against the recovery of settlement costs, realisation by coercive measures was negligible as compared with voluntary payments.

6. Mr. J. B. Kindersley, I.C.S., was in charge of the departments till the 5th of April 1934, when he went on leave for six months, and Rai Bijay Bihari Mukherji Bahadur officiated for him for the rest of the year. The Governor-in-Council has much pleasure in acknowledging the efficiency and care with which the departments of survey and settlement were managed during the year under review. His Excellency in Council is also pleased to direct that the good work done by the Survey Officers Mr. I. Newton and Major C. B. Sexton, the Settlement Officers Messrs. M. O. Carter, S. N. Ray (No. II), A. C. Hartley, F. O. Bell, Rai Bijay Bihari Mukherji Bahadur, Rai Ramesh Chandra Sen Bahadur, Babu Pramode Ranjan Dasgupta, Babu Hiralal Sen, Maulvi Nazir Hossain and Babu Dinesh Chandra Gupta and by the other officers mentioned in the last paragraph of the report be recorded.

Order—Ordered that the resolution be published in the *Calcutta Gazette*.

[11th April 1935.]

WHEREAS the raising or keeping of a standing army within the United Kingdom in time of peace, unless it be with the consent of Parliament, is against law:

And whereas it is adjudged necessary by His Majesty and this present Parliament that a body of land forces should be continued for the safety of the United Kingdom and the defence of the possessions of His Majesty's Crown, and that the whole number of such forces should

consist of one hundred and fifty-two thousand two hundred, including those to be employed at the depôts in the United Kingdom for the training of recruits for service at home and abroad, but exclusive of the numbers actually serving within His Majesty's Indian possessions other than Aden:

And whereas under the Air Force (Constitution) Act, 1917, His Majesty is entitled to raise and maintain the air force, and it is judged necessary that the whole number of such force should consist of thirty-three thousand, including those employed as aforesaid, but exclusive of the numbers serving as aforesaid: 7 & 8 Geo. 5, c. 51.

And whereas it is also judged necessary for the safety of the United Kingdom and the defence of the possessions of this realm that a body of Royal Marine forces should be employed in His Majesty's fleet and naval service under the direction of the Lord High Admiral of the United Kingdom, or the Commissioners for executing the office of Lord High Admiral aforesaid:

And whereas the said marine forces may frequently be quartered or be on shore, or be sent to do duty or be on board transport ships or vessels, merchant ships or vessels, or other ships or vessels, or they may be under other circumstances in which they will not be subject to the laws relating to the government of His Majesty's forces by sea:

And whereas no man can be forejudged of life or limb, or subjected in time of peace to any kind of punishment within this realm, by martial law, or in any other manner than by the judgment of his peers and according to the known and established laws of this realm; yet, nevertheless, it being requisite, for the retaining all the before-mentioned forces, and other persons subject to military law or to the Air Force Act in their duty, that an exact discipline be observed and that persons belonging to the said forces who mutiny, or stir up sedition, or desert His Majesty's service, or are guilty of crimes and offences to the prejudice of good order and military or air force discipline, be brought to a more exemplary and speedy punishment than the usual forms of the law will allow:

And whereas the Army Act and the Air Force Act will expire in the year one thousand nine hundred and thirty-five on the following days:—

(*a*) In Great Britain and Northern Ireland, the Channel Islands, and the Isle of Man, on the thirtieth day of April; and

(*b*) Elsewhere, whether within or without His Majesty's dominions, on the thirty-first day of July:

(3) A person subject to military law or to the Air Force Act shall not be exempted from the provisions of the Army Act or Air Force Act by reason only that the number of the forces for the time being in the service of His Majesty, exclusive of the marine forces, is either greater or less than the numbers hereinbefore mentioned.
